

As spring approaches, many future brides and grooms have wedding preparations on their minds. At West Coast Event Productions, we believe that a wedding should be an exceptional and flawless occasion. By providing an extensive list of services in the areas of consulting, design and rentals, we work side by side with clients to transform each unique vision into reality. We invite you to take a look at some of our newest wedding products.

2008 Tying the Knot Trends

With a spring palette of lemon and lime, and a collaboration with City Flowers, West Coast not only showcased a collection of our newest wedding products, but also designed the entire ballroom for this year's Bravo Wedding Show. Held the last week of February at the Embassy Suite's Queen Marie Ballroom, this boutique style, wedding trade show exhibited the 2008 trends for couples tying the knot this year.

The buffet tables, complete with delectable hors d'oeuvres provided by Embassy Suites, were draped with West Coast's new satin butter yellow and citron green table linens, and set beneath ivory chiffon canopies. West Coast's booth displayed the latest wedding trend of alternative seating with a lounge setting featuring plush sofas and custom designed stools. This year's newly weds will be saying "I Do" against a citrus backdrop and a bit of zest!

The New WCEP.com

Just launched this January, West Coast's new website - www.wcep.com - has many new exciting features. Our new products page, as well as our portfolio of events, is updated frequently, so be sure to check back on a regular basis to explore our latest products and events!
