

West Coast Event Productions, Inc.

It was all politics this month for West Coast Event Productions. When several Washington D.C. heavy hitters visited Oregon in early April, West Coast was the go-to company for the job. With eight events all around the state in just two weeks, West Coast was on the go providing event support for former President Bill Clinton and Senator Hillary Clinton's visits, and Jenna Bush's promotion of her new book.

WCEP on the Campaign Trail...

In conjunction with Secret Service personnel, West Coast produced six heavily attended media events with a general attendance of 3500 people. President Bill Clinton made four appearances in one day, traveling from Bend, to Portland and finally to Salem, while Senator Hillary Clinton's visit took her from Hillsboro to Eugene within the same day. West Coast outfitted each location with a complete sound system, lighting, drape and 10 foot x 15 foot Oregon and American flags behind the speaking podium. Our expert technical staff also provided the necessary equipment for the press boxes at each event.

The highly attended events required many last minute changes, including expanding the space to accommodate the large crowd of people waiting to get in to the rally. With comprehensive consulting services and an expert technical crew, our seasoned staff is experienced in simultaneously producing multi events in several locations.
