

West Coast Event Productions was proud to be a part of the movie premiere of *Autism Yesterday*, a 30 minute documentary that shares the stories of families with children who are recovering from Autism. With the task of producing the movie premiere, April Severson Events hired West Coast to design the screening with a Spring theme. The non-profit organization (and *Autism Yesterday* producers), [Generation Rescue](#), hosted the event at the Portland Art Museum on April 17. Celebrity board member Jenny McCarthy was guest speaker for the evening. We invite you to take a look...

Lights, Camera, Action...

West Coast's innovative designers took a fresh approach to "theater style" seating and used benches to construct rows for the screening. Each seat had a custom, ivory fitted cover with an osneberg and olive green cushion. In the two lounges on either side of the room, West Coast's sofas and club chairs were covered in ivory velour and joined by custom, matching pillow covers. The event also featured our new natural wood square lounge tables that complimented the "spring" theme. Click [here](#) to visit our website and stay current on new products!

In Bloom...

Cherry blossom branches, yellow daffodils in wheat grass, and pink parrot and yellow tulips brightened the ambience, while three statuesque manzanita branches on pedestals were displayed around the perimeter of the room. West Coast and [City Flowers](#) joined forces to create the petite and grand arrangements, respectively.
